- Delivery within 2–3 working days.

What is it used for?

The Floorstanding Sluice Sink (Slop Hopper) is designed for the safe and hygienic disposal of liquid waste in commercial, healthcare, and institutional environments. It is commonly used for emptying and rinsing items such as mop buckets, cleaning equipment, bedpans, bottles and clinical waste containers.

Its robust stainless steel construction and concealed flushing system make it ideal for high-use areas where hygiene, durability, and ease of cleaning are essential. Typical applications include hospitals, care homes, laboratories, schools, commercial kitchens, and industrial cleaning areas.
