

Floorstanding Adult Bottle Filling Fountain

Product Code: FSBFF-A

Stainless Steel Adult Height Bottle Filler

Product Code FSBFF-A

Stainless steel floor standing bottle filling fountain for filling of re-useable drinking water bottles. The rounded front provides safety for users whilst the full height shroud allows for the water pipes to be concealed.

- Floor standing adult height drinking water bottle filling fountain.
- Stainless steel grade 304 construction.
- Adult height 915mm.
- Fixed under shroud to conceal pipework.
- Rounded front design for safety.
- Complete with standard WRAS approved press button bottle filling tap.
- Supplied with fixing brackets, 32mm waste fitting and flexible waste pipe.
- Recommended for many applications including Schools.
- Please ensure that these are drained down and isolated in cold weather to avoid damage to the bubbler.
- Also available with [drinking water tap](#) or with [both drinking and bottle filling tap](#).
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
