

## Wall Recessed Bottle Filler (Non-Chilled)

Product Code: RMBF

### Stainless Steel Wall Recessed Bottle Filler

Product Code RMBF

Washware Essentials wall recessed bottle filler is designed for installation into the wall without encroaching on room space. Its vandal resistant design allows installation into most areas whilst the large bottle filling aperture is suitable for filling even the largest portable drinking water bottles.

- Large bottle filling aperture to accommodate most drinking water bottles.
- **This unit does not have a built-in chilling system and will dispense water at the incoming mains water temperature, [remote chillers](#) are available.**
- **KIWA REG4** approved product (see below for more information).
- Press button on / off filling valve.
- On / off valve prevents water waste by leaving the water running.
- Supplied with flush grated waste fitting and flexible waste pipe.
- Supplied fully assembled.
- Rear keyhole slots for simple installation.
- Bottom fixing lugs to fix to the wall.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

#### Overall Size

- 546mm High.
- 351mm Wide.

#### Bottle Aperture

- 340mm high.
- 128mm wide.

#### Approvals

**KIWA REG4** approval confirms that a product has been independently tested and certified to meet the requirements of the UK Water Supply (Water Fittings) Regulations. Certification under the **KIWA REG4** scheme demonstrates that the product complies with the regulatory standards for materials, design, and performance required for products used with potable water systems in the UK.

This approval provides assurance that the product satisfies the requirements of **Regulation 4**, in a manner comparable to certifications issued through schemes such as WRAS & NSF, while supporting the same objective of safeguarding water quality and preventing the waste, misuse, undue consumption, or contamination of the public water supply.

#### Delivery

- Usually in stock 1 to 2 working days.
