Hand Operated Bottle Filler (Non-Chilled)

Product Code: HOBF-18

Hand Operated Push Button Bottle Filling Fountain

Product Code HOBF-18

- Press button operated bottle filling unit.
- **This unit does not have a built-in chilling system and will dispense water at the incoming mains water temperature, remote chillers are available.**
- Easily operated with hand or forearm.
- Grade 304 stainless steel body.
- Impact resistant ABS plastic bottle filling section with antimicrobial coating.
- Laminar flow outlet spout to reduce splashing.
- 4.5 litre per minute flow rate.
- On / off operation to save water.
- Slim design to minimise projection into the room or corridor.
- 32mm waste fitting with plastic P trap.
- Hinged fold down fascia aids installation and maintenance.
- Ideal for filling sports bottles in schools, gyms, leisure centres, and public areas.
- Designed for water supply and waste through the back wall.
- Secured to the wall with fixing holes in the backplate.
- WRAS approved water fittings.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
