

No Touch Foot Operated Bottle Filler

Product Code: FOBF-18F

No Touch Foot Operated Bottle Filling Fountain

Product Code FOBF-18

- No touch foot operated bottle filling unit.
- Easily operated with either foot.
- No touch operation helps to prevent the spread of germs and viruses.
- Grade 304 stainless steel body.
- Stainless steel foot button housing.
- Stainless steel telescopic shroud to conceal pipework.
- Impact resistant ABS plastic bottle filling section with antimicrobial coating.
- Laminar flow bottle filling spout to reduce splashing.
- 4.5 litre per minute flow rate.
- On / off operation to save water.
- 32mm waste fitting with plastic P trap.
- Front fascia hinges to aid installation and maintenance.
- Ideal for filling sports bottles in schools, gyms, leisure centres, and public areas.
- Designed for water supply and waste through the back wall.
- Secured to the wall with fixing holes in the backplate.
- WRAS approved water fittings.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
