

Foot Operated Bottle Filler and Drinking Fountain

Product Code: DFBF-FA

Foot Operated Drinking Fountain With Water Bottle Filler

Product Code DFBF-FA

- Foot operated drinking fountain with built in water bottle filling unit.
- Individual foot operated buttons for bottle filler and drinking fountain.
- Foot operation reduced the need for users to touch the controls.
- Manufactured from stainless steel with satin polish finish.
- Back to wall and floor standing installation.
- Available as a free standing pedestal unit by adding a rear cover panel.
- Manufactured from stainless steel with a matt polished finish.
- WRAS approved water path fittings.
- Rounded front corners for safety.
- Floor and wall mounting points with a full adult height undershroud to conceal all plumbing.
- Complete with two 32mm waste fittings with flexible waste pipes joined with a T piece to leave a single outlet (requires a trap).
- 15mm compression fittings on foot valves.
- Lockable side door for and large rear opening for access to the plumbing connections and fixing points.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Size

- 900mm high.
- 300mm front to back.
- 300mm wide.
- Rear access hole 235mm from floor level.
