Junior Height Bottle Filling Fountain (Non-Chilled)

Product Code: DFFSJ-CF

Junior Height Bottle Filling Station

Product Code DFFSJ-CF

- Manufactured from grade 304 stainless steel, 1.6mm thick with full junior height shroud to protect for durability and vandal resistance.
- Stainless steel rounded removable shroud conceals waste fitting and supply pipework and is retained by security screws.
- Supplied as standard with a WRAS approved swan neck bottle filling spout with press button time flow valve. The self closing valve helps reduce any potential wasted water.
- Rounded front design for safety.
- Compact design to be installing in suitable locations.
- Supplied with integrated wall brackets and a 32mm flush grated waste fitting.
- Suitable to be installed in nurseries, pre-schools and schools.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Size

- 350mm front to back.
- 305mm wide.
- 760mm high plus 75mm rear upstand.
- 247mm bottle filler spout height.

Delivery

- From stock usually 1 to 3 working days.
