

## Drinking Fountain With Shroud And WRAS Approved Tap

Product Code: DFWHS-WRAS

### **Stainless Steel Drinking Fountains With Undershroud**

Product Code DFWHS-WRAS

These stainless steel drinking fountains with half height shrouds are ideal for areas where pipework and traps need to be concealed. Supplied with a WRAS approved bubbler tap to ensure water byelaws are met whilst unsightly pipework is kept out of sight.

- Manufactured from 1.6mm thick stainless steel for extra vandal resistance and durability.
- **WRAS approved press button chrome plated bubbler valve tap.**
- WRAS is the Water Regulations Advisory Scheme. The (tap) has been tested and approved to meet these requirements.
- Integral half height under shroud with removable baseplate to allow for exposed or concealed pipework.
- Radius front design for safety.
- Complete with concealed wall bracket and 32mm waste fitting.
- Recommended for many applications, including schools.
- Tested to 2.0 Bar pressure.
- Please ensure that these are drained down and isolated in cold weather to avoid damage to the bubbler.
- Available with a bottle / cup filling valve instead of bubbler.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
