Stainless Steel Boot Wash

Product Code: SSBW

Stainless Steel Boot Washing Sink

Product Code SSBW

Stainless steel floor mounted boot wash sink with hand support rail, boot cleaning brush, water supply hose and lever on / off water valve. The sink is ideal for cleaning muddy and dirty boots when coming inside the building. The bristle foot pad helps clean the soles of your footwear and holds your boot and foot firmly whilst you manually clean dirt and debris off with the hand held brush. The water supply is turned on and off by a lever valve mounted on the panel, the hand rail gives extra support and balance whilst cleaning takes place. Solidly constructed from stainless steel the boot wash unit is mounted on square hollow section stainless steel legs with adjustable feet. The unit is ideal for food factories, dairies, farms, and anywhere that requires strict foot cleanliness.

- Robust 1.2mm thick stainless steel construction.
- 450 x 500 x 151mm deep bowl.
- Stainless steel square hollow section support legs with adjustable feet.
- Rear support frame and grabrail.
