

Stock 2500mm Stainless Steel Wash Trough

Product Code: WTS

Stock Wash Troughs

Product Code WTS

End of line product please see [web page](#) for New version of the Stock wash trough.

The stock stainless steel hand wash troughs are manufactured in one piece from 1.2mm thick grade 304 stainless steel. Manufactured in two standard size 2500mm long and pre-drilled with single 35mm tap holes per user. The troughs are supplied complete with integral wall fixing brackets, centre 38mm flush grated waste fitting, and the option of stainless steel front support legs to give height of 950mm, taps, and traps.

The 2500mm length with five single 35mm tap holes for 5 users.

A choice of four standard tap options are available to suit the tap holes in the wash troughs:

1. Vandal resistant time flow taps for pre mixed or cold water with anti jamming/ flooding feature.
2. Sequential lever monobloc mixer taps.
3. Infra red angled basin spouts.
4. Knee operated valves and fixed basin spouts.

The hand wash troughs are also available without taps.
