

Solid Surface Stock Wash Trough

Product Code: SWTSS

Solid Surface Stock Wash Trough

Product Code SWTSS

The stock solid surface wash trough is manufactured from CreaCore, a high-performance poured resin bonded solid surface material designed for durability, hygiene, and long-term commercial use. It offers an excellent balance between modern aesthetics and everyday practicality, making it ideal for commercial washrooms, offices, and high-traffic facilities.

With its clean, contemporary design, this wash trough integrates seamlessly into professional environments and has proven popular in prestigious bathrooms, office blocks, and commercial developments. The concealed waste system maintains a streamlined appearance while significantly reducing routine maintenance and cleaning time. Engineered for strength and longevity, the solid surface construction makes this wash trough a reliable solution for busy washrooms and toilet areas where performance and appearance are equally important.

- Stock solid surface wash trough with rear tap ledge with pre drilled 35mm tap holes per user.
- Wall-mounted design supplied with wall fixing studs. (We recommend installation on a base unit (not supplied) for additional support in commercial settings).
- Available in 1200mm (2 user) and 1800mm (3 user) configurations.
- 32mm centre waste fitting with narrow slot waste channel.
- Trough colour: White.
- Front profile slopes gently back towards the waste channel for effective drainage.
- Pre-drilled single 35mm tap hole per user for straightforward installation.
- Manufactured from CreaCore solid surface material, suitable for demanding commercial environments.

Dimensions

- Lengths 1200mm and 1800mm.
- Front to back 490mm.
- Top to bottom 125mm.
- Bowl dimensions (1200 or 1800mm) 392mm x 67mm.

Delivery

- Delivery will be arranged to your site on a pallet to minimise the risk of damage.
- Delivery costs are calculated based on the delivery address.

Key Benefits

- Commercial-grade durability – Manufactured from CreaCore solid surface material, designed to withstand heavy daily use in high-traffic washrooms.
- Low maintenance design – Concealed waste and smooth, non-porous surface reduce cleaning time and ongoing maintenance costs.
- Professional, modern appearance – Clean lines and minimalist styling suitable for premium commercial and corporate environments.
- Improved hygiene – Solid surface construction is non-porous, helping to prevent bacteria build-up and making routine cleaning easier.
- Efficient multi-user solution – Available in 2 and 3 user configurations, ideal for maximising throughput in busy washroom areas.
- Easy specification and installation – Pre-drilled tap holes and standard waste sizing simplify installation and replacement in commercial projects.
- Long service life – A robust, long-lasting wash trough solution that offers excellent value over its lifecycle.

Ideal For

- Commercial office buildings
- Corporate headquarters and boardrooms
- Public and shared washrooms
- Education facilities
- Healthcare and medical environments
- Hospitality venues
- High-traffic toilet and washroom areas
