Sediment Separator

Product Code: E220

Sediment Separator

Product Code E220

Our sediment separator is designed to filter sand, sediment and debris from water. These units are easy to mount directly under wash basins and wash troughs becuase of the horizontal outlet and separate plastic elbow connector. Installing a sediment separator will help prevent blockages in your waste pipework and standard traps and reduce maintenance time and costs.

- Manufactured from 304 grade stainless steel, 1.5mm thick.
- Bright polished finish.
- Overall size 174mm x 235mm.
- Inlet and outlet dimensions are 38mm.
- 3.5ltr capacity.
- Minimum of 30mm of space required below the base to remove the bowl.

Delivery

- In stock usually 1 - 2 working days.
