Commercial Wash Trough With Monobloc Mixer Taps

Product Code: WT-LT

Stainless Steel Wash Trough with Monobloc Mixer Taps – Bundle Deal

Product Code WT-LT

The WT-LT is a complete stainless steel hand washing trough package supplied with a monobloc lever mixer tap for each user position. This bundle provides a convenient and cost-effective solution where both the wash trough and suitable mixer taps are required, removing the need to specify and purchase the taps separately.

Available in three standard lengths for 3–4 users, the stainless steel trough is supplied ready-drilled for the included mixer taps and comes complete with a central 38mm chrome-plated domed waste fitting and integral wall-fixing brackets. Both the trough and taps are held in stock for fast UK delivery.

Key Features

- Complete wash trough and monobloc mixer tap bundle.
- Supplied with one chrome-plated lever mixer tap per user.
- Stainless steel commercial wash trough.
- 442mm projection from the wall.
- Three standard lengths for 3–4 users.
- Pre-drilled to suit the supplied mixer taps.
- Supplied with central 38mm chrome-plated domed waste fitting.
- Integral wall-fixing brackets.
- Suitable for wall-mounted installation.
- Mixer taps feature fixed spouts and chrome-plated brass bodies.
- Taps tested and approved to meet current UK Water Supply Regulations under an appropriate approval scheme.
- Troughs and taps held in stock for fast UK delivery.
- Special bundle pricing while stocks last.

Sizes & Number of Users

- 1600mm – 3 users / 3 mixer taps
- 1800mm – 3 users / 3 mixer taps
- 2400mm – 4 users / 4 mixer taps

Projection: 442mm front to back
Bowl depth: 181mm
Rear upstand: 30mm

Each size is supplied with the appropriate number of monobloc lever mixer taps for the stated number of users.

Monobloc Lever Mixer Taps Included

The WT-LT bundle includes one monobloc lever mixer tap for each handwashing position, providing hot and cold water control from a single tap.

The supplied taps feature:

- Chrome-plated brass construction.
- Easy-to-operate lever control.
- Fixed spout.
- Single-hole monobloc installation.
- Suitable connections for hot and cold water supplies.
- Tested and approved to meet current UK Water Supply Regulations under an appropriate approval scheme such as NSF REG4, Kiwa KUKreg4 or equivalent.

Full tap approval details are available on request.

Bundle Deal

Purchasing the trough and mixer taps together provides a straightforward way to specify a complete multi-user handwashing station.

The trough is supplied ready-drilled for the included taps, so there is no need to select a separate tap-hole configuration or source compatible mixer taps independently.

The package includes:

- Stainless steel wash trough.
- One monobloc lever mixer tap per user.
- 38mm chrome-plated domed central waste fitting.
- Integral wall-fixing brackets.

This product is offered at a special bundle price while stocks last.

Delivery

In stock – usually delivered within 1–2 working days.

The wash troughs and mixer taps are held in stock for fast UK delivery.

Optional Extras

- Stainless steel front support legs.
- TMV3 thermostatic mixing valves.
- 38mm plastic bottle trap.
- Chrome-plated brass bottle trap with chrome waste pipe and flange.
- Stainless steel bottle trap cover.
- Stainless steel wall-mounted and deck-mounted soap dispensers.
- Stainless steel paper towel dispensers.

Water Temperature Control

The supplied monobloc mixer taps allow users to mix the hot and cold water supplies at the tap.

Where a controlled maximum outlet temperature is required by the application or project specification, suitable thermostatic mixing valves can be installed as part of the water supply system.

TMV3 thermostatic mixing valves are available separately if required.

Cleaning & Maintenance

Clean the stainless steel trough regularly using warm soapy water or a mild detergent. Avoid bleach, chloride-based cleaners, steel wool and other aggressive or abrasive cleaning products that may cause staining or damage to the stainless steel surface.

Chrome-plated mixer taps should be cleaned using a mild non-abrasive cleaner and soft cloth to help protect the plated finish.

For full stainless steel care instructions, see our Stainless Steel Cleaning Guide.
