

## KWC DVS Miranit 3 Person Wash Trough

Product Code: SOLX1800T

### KWC DVS Miranit 3 Person Wash Trough

**Product Code SOLX1800T - 13 x units only at this price**

Constructed from high-quality MIRANIT, a resin-bonded mineral composite, the KWC DVS wash trough delivers a durable, seamless surface that resists heat up to 80°C. Its sleek, modern aesthetic is matched by practical features, making it a smart choice for a variety of washroom settings. With stock availability for quick delivery, it's a convenient option for fast project turnaround. Each trough is supplied with pre-formed tap holes and an integrated waste and overflow system, streamlining the installation process.

- Wall mounted style supplied with wall fixing kit (please use kit if suitable for the wall it is being installed on)
- Available in 1800mm (3 user) length - also available as a 1200mm 2 user trough
- 32mm waste kit and overflow.
- The trough colour is Alpine White.
- Integral rear fixing points.
- Pre drilled single 35mm tap holes per user.
- Manufactured from MIRANIT resin-bonded mineral material.

#### Dimensions

- Length 1800mm (also available in 1200mm)
- Front to back 480mm
- Top to bottom, 170mm.

#### Delivery

- Delivery will be arranged to your site on a pallet to reduce the risk of damage.
- Delivery costs will depend on the delivery address.
- In stock, lead time will be 3–5 days.

MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.
