# KWC DVS Miranit Single Quadro Wash Basin

Product Code: ANMW411

## KWC DVS Miranit Single Quadro Wash Basin

**Product Code ANMW411 - 5 x units only at this price**

The KWC DVS Quadro single wash basin is manufactured from durable MIRANIT resin-bonded mineral material, featuring a smooth, non-porous alpine white gelcoat finish that is resistant to temperatures up to 80°C. Designed for hygiene and ease of maintenance, its seamless construction and pore-free surface make it an excellent choice for high-traffic washroom environments.

This wall-mounted basin includes a contoured rear edge, three-sided apron, and integrated back panel with pre-formed fixing holes for secure wall installation. A wall mounting kit (hanger bolts and dowels) is supplied as standard—please ensure suitability for your wall type before installation.

Each unit comes with a pre-drilled tap hole (single 35mm) for straightforward fitting. The robust, fracture-resistant material ensures long-lasting performance even in demanding settings.

- Single wash basin.
- Wall mounted style supplied with wall fixing kit (please ensure kit is suitable for the wall it is being installed on)
- 600mm long (1 user).
- Also available in 1400mm long (2 user) and 2100mm long (3 users).
- 32mm waste per user (not supplied).
- Alpine White gel coat finish.
- Integral moulded back with holes for fixing.
- Pre drilled single 35mm tap holes per user.
- Manufactured from MIRANIT resin-bonded mineral material.

- Length: 600mm.
- Front to back: 530mm
- Top to bottom: 125mm.

Delivery

- Delivery will be arranged to your site on a pallet to reduce the risk of damage.
- Delivery costs will depend on the delivery address.
- In stock, lead time will be 3–5 days.

*MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.*
