KWC DVS Miranit Double Quadro Wash Basin

Product Code: ANMW421

KWC DVS Miranit Double Quadro Wash Basin

Product Code ANMW421

The KWC DVS Quadro double wash basin unit is crafted from high-strength MIRANIT, a resin-bonded mineral composite with a seamless, alpine white gelcoat surface. This non-porous material is highly resistant to wear, easy to maintain, and can withstand temperatures up to 80°C - making it ideal for busy, commercial washrooms.

Engineered for wall-mounted installation, the unit features two wash basins with a contoured rear up stand, a three-sided apron for added coverage, and an integrated back panel with pre-drilled holes for secure and stable mounting. Supplied with a wall fixing kit (including hanger bolts and dowels), installation is straightforward - just ensure the mounting surface is suitable for the provided fittings.

Each unit comes with a pre-drilled single 35mm tap hole per user for straightforward fitting. The robust, fracture-resistant material ensures long-lasting performance even in demanding settings.

- Two wash basin unit.
- Wall mounted.
- Supplied with wall fixing kit (please ensure kit is suitable for the wall it is being installed on)
- 1400mm long (2 user).
- Also available in 600mm long (1 user) and 2100mm long (3 user).
- 32mm waste per user (not supplied).
- Alpine White gel coat finish.
- Integral moulded back with holes for fixing.
- Pre drilled single 35mm tap hole per user.
- Manufactured from MIRANIT resin-bonded mineral material.

Dimensions

- Length: 1400mm.
- Front to back: 530mm
- Top to bottom: 125mm.

Delivery

- Delivery will be arranged to your site on a pallet to reduce the risk of damage.
- Delivery costs will depend on the delivery address.
- In stock, lead time will be 3–5 days.

MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.
