KWC DVS Miranit Triple Quadro Wash Basin

Product Code: ANMW431

KWC DVS Miranit Triple Quadro Wash Basin

Product Code ANMW431 - 2 x units only at this price

The KWC DVS Quadro triple wash basin unit is constructed from durable MIRANIT a robust mineral composite reinforced with resin and finished with a seamless alpine white gelcoat. This hygienic, non-porous surface is exceptionally resistant to damage, simple to clean, and designed to endure temperatures up to 80°C, making it a smart choice for high-traffic commercial washrooms.

Designed for wall-mounted setups, the basin features three wash basins with a shaped rear upstand, three-sided apron for enhanced splash protection, and an integrated back panel pre-drilled for quick, secure installation. A complete wall fixing kit—including hanger bolts and dowels—is included to simplify the fitting process, provided the mounting wall is appropriate for load-bearing.

Each of the three user stations is equipped with a pre-drilled 35mm tap hole, allowing for easy tap installation. Built from a tough, shatter-resistant material, this unit delivers lasting durability in demanding environments.

- Three wash basin unit.
- Wall mounted.
- Supplied with wall fixing kit (please ensure kit is suitable for the wall it is being installed on)
- 2100mm long (3 user).
- Also available in 600mm long (1 user) and 1400mm long for 2 users.
- 32mm waste per user (not supplied).
- Alpine White gel coat finish.
- Integral moulded back with holes for fixing.
- Pre drilled single 35mm tap hole per user.
- Manufactured from MIRANIT resin-bonded mineral material.

Dimensions

- Length: 2100mm.
- Front to back: 530mm
- Top to bottom: 125mm.

Delivery

- Delivery will be arranged to your site on a pallet to reduce the risk of damage.
- Delivery costs will depend on the delivery address.
- In stock, lead time will be 3–5 days.

MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.
