WF3EZ Easy Change Water Filter Panel

Product Code: WF3EZ

Wall-Mounted EZ-Door Water Filter Panel

Product code: WF3EZ

Easy-Change PFAS Water Filter (WF3EZ). The WF3EZ easy-change filter panel is a high-performance, two-stage PFAS water filter system designed to integrate with Murdock water coolers, fountains, or bottle fillers. It gives you advanced filtration while keeping maintenance fast and user-friendly, thanks to the quick-access EZ-door design. Simply unlock the access door, lower the filter, twist off the old filter and twist on the new filter. Raise the door and lock. The water automatically shuts off whilst the filter is changed making filter changes quick and easy.

Key Features & Benefits

- **Long-lasting capacity**: Rated for up to 3,000 US gallons / 11,356 litres (or approximately one year, depending on usage).
- **Dual-stage filtration**: Hollow-core fiber plus carbon block. Removes PFAS (including PFOA, PFOS, PFHxS, PFNA), lead, chlorine, cysts, microplastics and more.
- **Certifications**: Independently verified for NSF/ANSI 42 + 53 (chlorine, lead, cyst), NSF/ANSI 401 (microplastics), and PFAS reduction.
- **Quick-change design**: ¼-turn filter head with auto shut-off so you can replace the cartridge without turning off the water.
- **Universal mounting**: Includes a bracket for easy installation on compatible Murdock units.
- **Flow rate**: Delivers up to ~1.25 US GPM (1.9 L/min) so there is negligible drop in performance when filtering.
- **Robust build**: Designed for cold-water (not for hot water) and built to cope with typical building water pressures.

What's Included

- Filter cartridge (WF3EZ, PFAS-rated).
- Filter head with quick-connect inlet/outlet and auto-shut off feature.
- Mounting bracket for installation.
- Access door for fast maintenance.

Where to Use It

This filter panel is perfect as an accessory for:

WCWM water coolers
WCBF water coolers with bottle fillers.

Maintenance & Replacement

Open the EZ-door access panel for easy entry.

1. Twist the filter cartridge ¼-turn to remove — the auto shut-off prevents dripping.
2. Insert the new filter, twist to lock, close the door.
3. Flush about 3–5 gallons of water through a newly installed filter before first use for optimal performance.

Technical Specifications

- Specification Detail: Model WF3EZ PFAS Filter Panel.
- Capacity: 3,000 US Gallons / 11,354 litres.

- 1 year (typical usage).
- Flow Rate: Up to 1.25 US GPM (1.9 L/min).
- Certifications: NSF/ANSI 42, 53, 401; PFAS verified
- Operating Pressure: Up to 105 PSIG (724 kPa).
- Temperature Range: 2 °C to 38 °C (35–100°F).

Fast Delivery

In stock for quick despatch.

Standard delivery: 1 to 3 working days.

Compatibility

This unit is available as an optional accessory when ordering compatible water coolers or bottle fillers. Models WCWM and WCBF and requires simple installation into the unit. Full instructions supplied.
