

Clearance Single Bottle Filling Trough - One Only

Product Code: 901

Single-User Wall Mounted Bottle Filling Trough – Clearance Item - One Only

Product Code: 901

This single-user wall-mounted bottle filling trough provides a practical and hygienic way to refill reusable water bottles in busy environments. Designed for durability and ease of use, it is an ideal solution for schools, gyms, workplaces, leisure centres, and public facilities looking to offer a convenient hydration point.

Please note: This listing is for a clearance / one-off unit, available while stock lasts.

- Durable Stainless Steel Construction
- Manufactured from 1.2mm thick grade 304 stainless steel, this bottle filling station is built to withstand frequent daily use. The brushed satin finish provides a clean, contemporary appearance while helping minimise visible marks and wear over time.
- The robust design ensures long service life in high-traffic locations, while the smooth stainless steel surfaces allow for quick and simple cleaning.
- Push Button Tap with User-Controlled Water Flow
- This model is fitted with an on/off push button tap, allowing users to start and stop the flow of water as required. Compared with traditional timed taps, this offers several advantages:
 - Greater control over water usage
 - Reduced unnecessary water wastage
 - A quicker and more convenient bottle filling experience
 - A 38mm waste outlet is included to provide efficient drainage and straightforward installation.
- Supporting Sustainable Hydration
- Installing a dedicated bottle filling station helps encourage the use of reusable drinks bottles within your facility. This simple addition can contribute towards:
 - Reducing single-use plastic waste
 - Supporting environmental initiatives
 - Lowering waste disposal volumes
 - Promoting sustainable behaviour among staff, visitors, and students
 - Providing easy access to drinking water makes it easier for organisations to adopt greener practices.

Space-Saving Wall Mounted Design

The compact wall-mounted format helps maximise floor space while offering a convenient bottle filling point. The unit can be installed at a suitable height for your environment and can be configured to support accessible installations, including wheelchair-friendly setups where required. Its clean, minimal design suits a wide range of interiors including education, healthcare, retail, and commercial environments.

Reliable and Low Maintenance

With its strong stainless steel construction and straightforward design, this bottle filling trough provides a cost-effective and low-maintenance hydration solution. It is designed to deliver reliable performance while remaining simple to clean and maintain.

Dimensions

- Length: 275mm
- Depth (front to back): 280mm
- Height: 445mm

Supplied With

- 38mm flush grated waste fitting
- Hinged grating to reduce splashing and allow easy cleaning
- WRAS approved on/off push button tap with brass backnut

Important:

To ensure correct operation and protect the internal components of the tap, a Y-strainer or filter must be installed on the water supply. Failure to install a suitable filter will void the warranty.

Delivery

This clearance unit is available for quick dispatch, typically within 1–2 working days
