Fibreglass Bottle Filling Fountain (Non-Chilled)

Product Code: GRP-BF

White Fibreglass Wall Hung Bottle Filling Fountain with WRAS Approved Swan Neck Spout

Product Code: GRP-BF

Enhance your hydration facilities with this white fibreglass wall mounted bottle filling fountain, designed specifically for convenient and hygienic bottle refilling in busy environments. Featuring a WRAS approved swan neck bottle filling spout with push-button on/off operation, this unit provides controlled water delivery while supporting compliance with UK water regulations.

Constructed from durable fibreglass, this wall hung bottle filler offers a strong yet lightweight solution that resists corrosion, impact and everyday wear. The smooth white surface provides a clean, modern appearance and is easy to maintain, making it particularly suitable for education, leisure and commercial settings where cleanliness and reliability are essential.

Key Features

- Wall mounted white fibreglass bottle filling fountain with WRAS approved swan neck spout.
- Push-button operation for controlled, hygienic bottle filling.
- High-quality fibreglass construction – resistant to corrosion, staining and damage.
- Smooth curved front edge to improve safety in high-use areas.
- WRAS approved bottle filling outlet to support UK water regulation compliance.
- Supplied with concealed fixing bracket and 32mm waste fitting.
- Integral rear upstand helps protect wall finishes from splashes.
- Lightweight alternative to metal units with excellent long-term performance.
- Suitable for schools, gyms, workplaces, swimming polls, transport hubs and public buildings.
- WRAS Approved bottle filling spout.

This unit is fitted with a WRAS approved swan neck bottle filling spout, designed to deliver safe drinking water in accordance with UK standards. The extended outlet allows easy positioning of reusable bottles beneath the flow, reducing spillages and improving user convenience in shared environments.

Installation & Maintenance

For best results and to maximise product lifespan:

- Fit a Y-strainer or inline filter to maintain water quality and protect internal components.
- Lack of filtration may affect warranty coverage.
- Isolate and drain the unit during freezing conditions to prevent frost-related damage.

Dimensions

Width: 300mm.
Projection: 350mm.
Overall Height: 290mm.
Splashback Height: 80mm.

Delivery

Fast UK delivery – typically 1 - 2 working days from stock.
