Sensor Operated Bottle Filler - Surface Mounted (Non-Chilled)

Product Code: SOBF

Surface Mounted Sensor Operated Bottle Filler

Product Code: SOBF

The SOBF offers a practical hydration solution for commercial washrooms, offices, leisure facilities and public buildings. Featuring touch-free sensor activation and a slim surface-mounted design, it provides convenient bottle refilling without the need for recessed wall installation. Manufactured from durable stainless steel, the SOBF combines reliability, hygiene and ease of maintenance. Integrated digital display records the number of bottles filled, helping users track water consumption and highlighting the reduction in single-use plastic bottle waste.

- Touch-free sensor operation.
- Surface-mounted installation.
- Bottle Counter Display to show how many bottles have been filled.
- Type 304 stainless steel cabinet.
- Satin polished finish.
- Antimicrobial impact-resistant ABS components.
- Laminar flow outlet reduces splashing.
- 3.78 litres per minute fill rate.
- Universal mounting points for retrofit applications.
- Fold-down front housing for maintenance access.
- Lead-free construction.
- 20-second automatic shut-off.
- 100-mesh inlet strainer included.
- Indoor use only.
- ADA compliant when correctly installed.
- To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Overall Size

- Height: 749mm.
- Width: 464mm.
- Depth: 124mm front to back.
- Bottle filler tray: 187mm front to back.
- Bowl height: 308mm.
