GRP Wall Mounted Bottle Filler (Non-Chilled)

Product Code: GRP-WMBF

GRP Wall Mounted Bottle Filler – White Gelcoat finish

Product Code GRP-WMBF

The GRP Wall Mounted Bottle Filler provides a convenient and hygienic solution for refilling reusable drinking water bottles in schools, offices, leisure centres and other commercial and public buildings.

Manufactured from 6mm thick glass reinforced plastic (GRP), the unit features a smooth white gelcoat finish, providing a clean, modern appearance and a durable, easy-to-clean surface.

The moulded design incorporates generously rounded corners and edges with gently sloping sides, creating a softer, more streamlined appearance than traditional stainless steel bottle filling stations.

The compact wall mounted design is ideal for areas where floor space is limited, providing a dedicated drinking water refill point without the need for a freestanding unit.

Features and Benefits

- Manufactured from 6mm thick glass reinforced plastic (GRP).
- Smooth white gelcoat finish.
- Rounded corners and edges for a modern, streamlined appearance.
- Gently sloping sides.
- Durable moulded construction with an easy-to-clean surface.
- Large 335mm high x 125mm wide bottle filling aperture.
- Suitable for refilling most reusable drinking water bottles up to 750ml.
- Hand or forearm operated push button filling valve.
- Push button on/off operation to help reduce unnecessary water consumption.
- Non-chilled unit dispensing water at incoming mains water temperature.
- Remote water chillers available separately.
- Wall mounted design to maximise available floor space.
- Suitable for schools, colleges, offices, leisure centres and other commercial environments.

Dimensions

- Overall Height: 566mm
- Overall Width: 366mm
- Overall Projection: 90mm
- Bottle Filling Aperture: 335mm high x 125mm wide
- Material Thickness: 6mm GRP
- Corner Radius: 20mm
- Finish: White gelcoat

All dimensions are approximate.

Installation

- Designed for wall mounted installation.

- Surface mounted with water supply and waste connections through the rear wall.
- Stainless steel mounting bracket attached to wall.
- Bottle filler attached to mounting bracket with fixing bolts and washers.
- Supplied with 32mm waste fitting and flexible waste pipe.
- Suitable for connection to a potable mains water supply.
- Remote water chiller can be installed separately where chilled drinking water is required.

Important: A Y-strainer or suitable water filter must be installed on the incoming water supply to protect the bottle filling valve from debris. Failure to install a Y-strainer or filter will invalidate the warranty.

Water Regulations Approval

Kiwa REG4 approval pending. The GRP wall mounted bottle filler is currently awaiting Kiwa REG4 approval.

Typical Applications

Suitable for a wide range of commercial and public environments, including:

- Schools, colleges and universities.
- Offices and commercial buildings.
- Sports centres, gyms and leisure facilities.
- Public buildings and community centres.
- Workplace welfare and staff facilities.
- Other locations requiring convenient access to drinking water.

Delivery

Standard Delivery: 1–2 working days.

Extras

- Y Strainer
- Inline water filter

We also supply a stainless steel wall mounted bottle filler.
