INFORMATION

Corian® is made from a blend of 75% natural minerals and pigments set in an acrylic polymer matrix which inhibits the growth of bacteria and mold.

Corian® has an eco-friendly non-porous surface with high resistance to everyday stains, scratches and heat. Durability is similar to that of natural stone. It is a renewable material and can be recycled at the end of its lifespan.

Due to its superior quality and affordability Corian® offers a better alternative than similar products such as other solid surfaces materials, plastic laminate, granite, synthetic stone and tile.

White Wall Brackets

278mm long and designed for minimum visibility.

Where wall brackets are required on the following models:

- Urban
- Angled basin
